14. ____ Work undertaken by a person providing construction, remodeling, repair, improvement, removal, or demolition valued at \$2,500 or less per project on behalf of a properly licensed contractor, provided that such contractor holds a valid license in the residential or commercial building contractor classification. However, any construction services that require an individual license or certification shall be rendered only by an individual licensed or certified in accordance with this chapter. All other contractors performing work for any government or for any governmental agency are subject to the provisions of this chapter and are required to be licensed as provided herein

I understand that even if I am exempt from licensure pursuant to the provisions of Exemptions 7, 10, 11, or 12 I shall obtain a certificate of occupancy for any building constructed, repaired or improved prior to conveying such property to a third-party purchaser, unless such purchaser has acknowledged in writing that no certificate of occupancy has been issued and that such purchaser consents to acquire the property without a certificate of occupancy
