UVA Electronic ID Instructions

Electronic IDs from Virginia Colleges and Universities are acceptable IDs (as are their non-electronic IDs). The UVA Electronic ID is depicted below:

When using an electronic ID, first the user should show you they show you they are launching the app from their phone. The UVA Electronic ID can also display the flip side or back of the ID (not the other side of the phone!).

If the voter brings their phone already showing an Electronic ID from anywhere, please ask them to go back to the beginning of the ID app and walk through the process of displaying the ID, so you can see they are using the approved app. A picture or a screenshot of ANY ID – ELECTRONIC OR OTHERWISE - is not a valid substitute for that ID.

Bar codes or QR codes from electronic IDs will not scan on the Poll Pads, you must manually enter the voter via 3,3.
