

Albemarle County Elections

Virginia Mobile ID Instructions

The Virginia mID app can now be used as an acceptable form of ID, providing the voter has it on their phone, has registered the app, and can go through the process below.

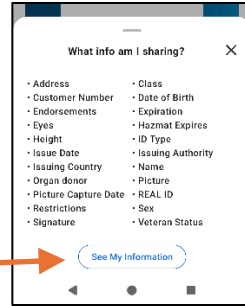

First, they show you they are launching the app from their phone:

Second, they select the "Driver's License" choice:

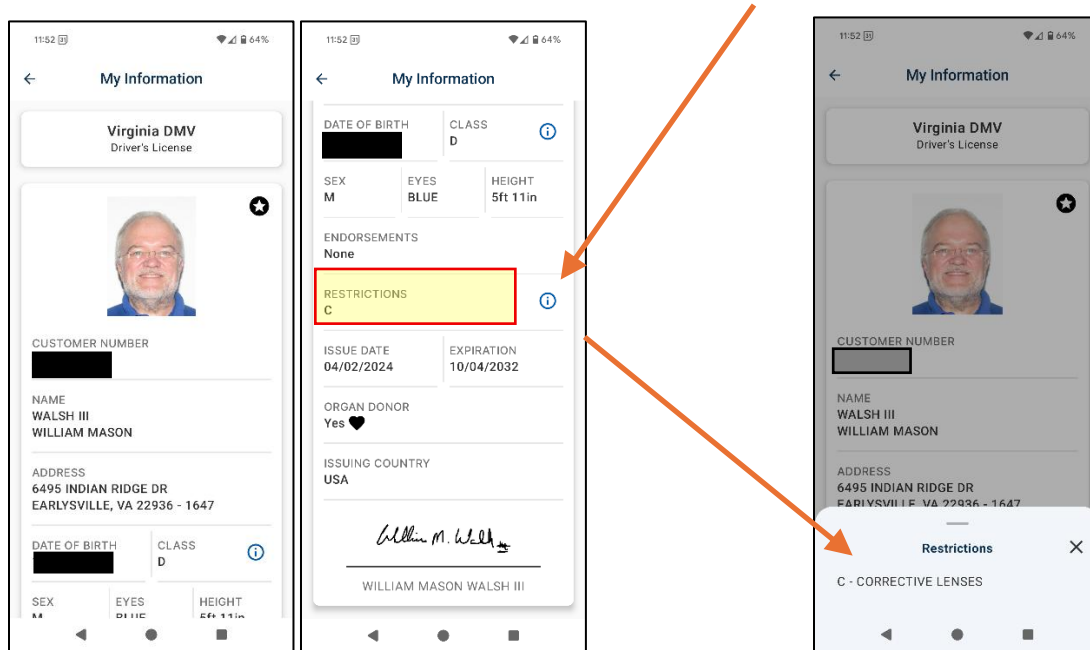

Third, on the Driver's License page they select "What Info am I Sharing?"

Fourth, in the “What Info” display, select “See My Information”

Fifth, once the license information appears, have them hand the phone to the officer.

The Officer of Election will use the displayed information to check the voter in just as they normally would (asking the voter for name and address, etc.). You may have to scroll the screen with your finger to see all of their identifying information. If they have “Restrictions” (highlighted below), you can click on the “I” to the right for more information.

If their restriction is a 9 for limited duration, you must ask for another form of ID or ask them to sign the ID confirmation statement.

If the voter brings their phone already showing the driver’s license, please ask them to go back to the beginning and walk through the process, so you can see they are using the approved app.
