Go to next page to continue counting more ballots beyond 500.

Begin by opening a package of ballots and counting them, grouping 10 ballots at a time in criss-crossed stacks. There should be 100 ballots in each package. Note the actual count on the Ballot Record Report. When you are at the end of the ballots from a package, update the Ballot Record Report with the count of ballots actually issued for that package (usually the same as the count of the ballots in the package except for the last package).

Ballots issued for SPOILED ballots or PROVISIONAL/SDR ballots are counted here AND on the Ballot Record Report.

Go to next page to continue counting more ballots beyond 2500.

There should be 100 ballots in each package opened. Note the actual count on the Ballot Record Report. When you are at the end of the ballots from a package, update the Ballot Record Report with the count of ballots actually issued for that package (usually the same as the count of the ballots in the package except for the last package).

Ballots issued for SPOILED ballots or PROVISIONAL/SDR ballots are counted here AND on the Ballot Record Report.

Ballot Tally Sheet

Use this sheet to keep track of **ALL** ballots that have been issued, including ExpressVote ballots. Cross off the next number as the ballots are handed out.

Call the Registrar's Office if you think you will be having more than 3000 ballots issued!

There should be 100 ballots in each package opened. Note the actual count on the Ballot Record Report. When you are at the end of the ballots from a package, update the Ballot Record Report with the count of ballots actually issued for that package (usually the same as the count of the ballots in the package except for the last package).

Ballots issued for SPOILED ballots or PROVISIONAL/SDR ballots are counted here AND on the Ballot Record Report.
